## About Alper Stationery

Alper Stationery was established in 2018 with a clear vision to create reliable, well-designed stationery that combines functionality and style. Starting with the production of tape dispensers, and through continuous market research and close attention to customer needs, identified a strong demand for high-quality metal rulers in both domestic and regional markets. Alper quickly evolved into one of the leading manufacturers of steel rulers in the region, known for its innovation, precision, and consistent quality.

Over the years, the company has expanded its product portfolio to include colored and fantasy steel rulers, geometry sets, steel clipboards, tape dispensers and magazine holders, offering durable and modern tools for offices, schools, and creative professionals.

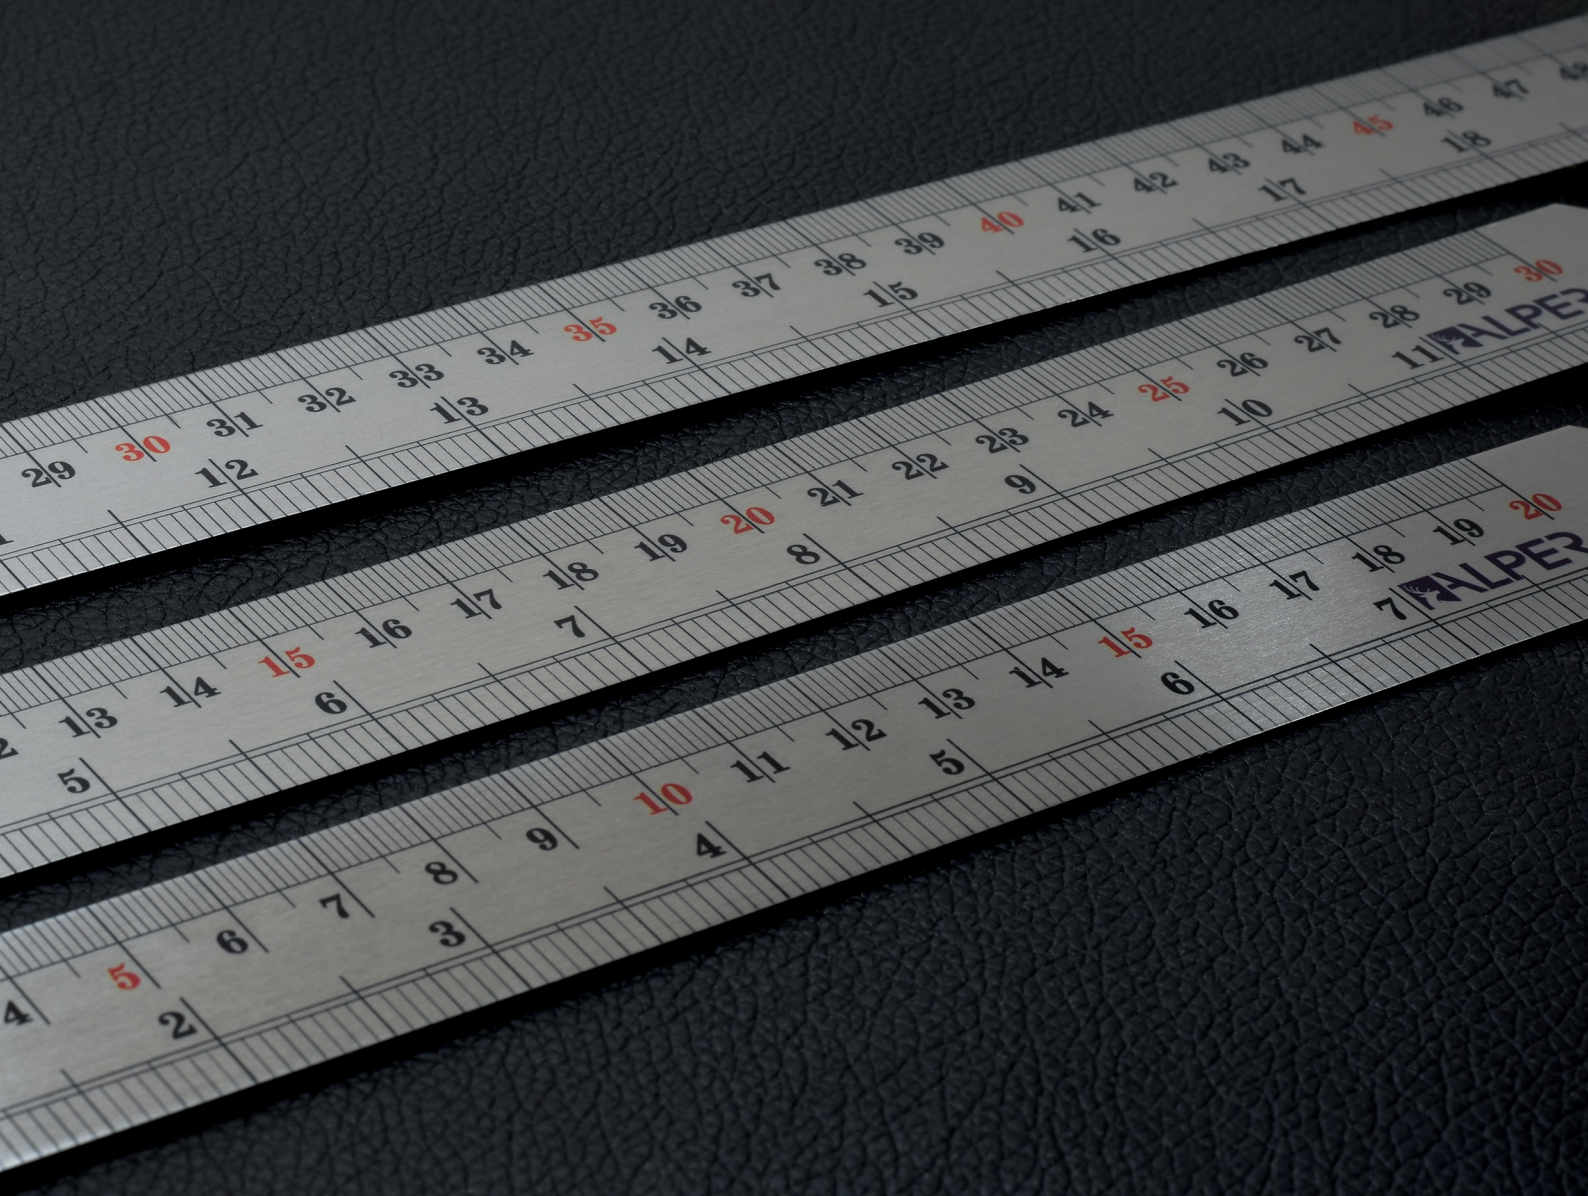

With a production capacity of 3 million rulers per year, Alper stands as a key supplier capable of meeting both high-volume demands and customized requirements. All stages of production, from raw material processing to final assembly, are completed in-house, ensuring strict quality control and product consistency.

Alper also offers Private Label (OEM) manufacturing, enabling partners to develop their own branded products supported by Alper's design expertise and technical know-how.

Driven by a commitment to customer satisfaction and long-term partnerships, Alper continues to expand its international presence, delivering products that reflect the perfect balance of precision, durability, and modern craftsmanship.
